Ross DeLuca
EHS Specialist
ITW Permatex/Spray Nine Brand
6875 Parkland Boulevard
Solon, OH 44139

Subject: PRIA Label and CSF Amendment – Adding SARS-CoV-2 claims and Alternate Formula CSFs (A-4 – A-6) to add fragrances
Product Name: SPRAY NINE
EPA Registration Number: 6659-3
Received Date: 03/10/2021
Action Case Number/Decision Number: 00294327

Dear Ross DeLuca:

The amended label and CSFs referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, are acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. Pursuant to 40 CFR 156.10(a)(6), you must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. “To distribute or sell” is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Please note that the record for this product currently contains the following CSFs:

- Alternate CSF A-4 dated 03/02/2021
- Alternate CSF A-5 dated 03/02/2021
- Alternate CSF A-6 dated 03/02/2021

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. See FIFRA section 2(p)(2). If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition,

regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process, FIFRA section 12(a)(1)(B). Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Assurance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Carlos Corona via email at Corona.Carlos@epa.gov.

Sincerely,

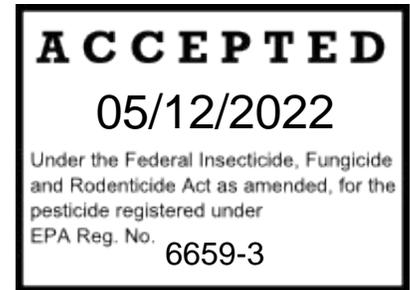

John Hebert, Chief
Regulatory Management Branch 1
Antimicrobials Division (7510M)
Office of Pesticide Programs

Triple Threat: Cleans • Degreases • Disinfects

BBQ Grill Cleaner – cleans grills and smokers

Great for [Cars], [RVs], [Boats], [Trailers], [Camping Equipment] and More

Cleans and Disinfects [high-touch] hard non-porous [Automotive] Surfaces [like] [door handles] [mirrors] [switches] [non-leather steering wheels and gear knobs].

Gentle on hard non-porous Surfaces [like] [stainless steel] [metal] [hard plastic] [countertops] and More

Fresh Lemon Scent!

CLEANING – Spray Nine digs out tough soils like grease, oil, grime, food/drink stains, crayon, ink, fresh paint, fingerprints, soap scum, smoke, soot, fish blood, silt, tough automotive soils, tar, bug splatter, road grime, brake dust, grass stains, nicotine stains, suntan oil, adhesives, bird droppings, ground in dirt, wallpaper paste ---with spray on-wipe off ease. Powers off tough grease and grime. Spray Nine is great as a black streak remover. Removes burned on food and carbon deposits quickly and effectively. Spray Nine is great when used for prepping surfaces for paint, wall and decorative hangings.

[Alternate Heading]

(For 22oz, 32oz and 1, 5 and 55 gallon containers 26801, 26805, 26810, 26832, 26855)

Spray Nine® Heavy-Duty Cleaner's incredible dirt-busting power tackles the toughest cleaning jobs around the home and garage. Cuts through stubborn grease, grime and hard-to-remove stains. Spray Nine® kills viruses* and bacteria†, and helps control mold and mildew, on hard non-porous surfaces. Destroys odors.

(For Marine)

Marine Spray Nine® cleans the toughest jobs above and below deck. Spray Nine® cuts through grease, grime, mold & mildew, fish blood, yellowing, black streaks, algae, scum, bird droppings, bug/insect debris and more. With its disinfecting formula properties Marine Spray Nine kills germs, destroys bacterial odors and helps control mold and mildew on hard, non-porous surfaces.

(For Lemon)

Spray Nine® Heavy-Duty Cleaner's incredible dirt-busting power tackles the toughest cleaning jobs around the home and garage. Now with a refreshing lemon scent, Spray Nine® cuts through stubborn grease, grime and hard-to-remove stains. Spray Nine® kills viruses* and bacteria†, and helps control mold and mildew, on hard non-porous surfaces. Destroys odors.

(For BBQ Grill Cleaner)

Spray Nine® BBQ Grill Cleaner digs out tough grease and grime, food stains and other stubborn soils from BBQ's, smokers, grills, countertops, stainless steel and non-porous glazed tile with spray on-wipe off ease. When used as directed, Spray Nine® BBQ Grill Cleaner kills E.coli on hard, non-porous surfaces in just 45 seconds!†

(For 32oz and 1, 5 and 55 gallon containers)

Ideal for: Cleaning equipment, tools, motors, work benches, bumpers, rocker panels, RVs, trailers, conveyors, walls, floors, garbage bins, gutters, vents, vinyl siding, patio furniture, sporting equipment, BBQ's, boats, hot tubs & pools, kitchens, washroom surfaces, fiberglass, vinyl, rubber, plastic, glazed tile, glazed porcelain, painted/treated metals and much more.

(For 32oz, 1 gallon, 5 gallon, and 55 gallon Marine containers)

Ideal for: Cleaning fiberglass, vinyl, hulls, bilges, galleys, bait buckets, boats, jet skis, pools, hot tubs, sporting & camping equipment, RVs, trailers, coolers, personal watercrafts, patio furniture, inboard and outboard motors, rubber, plastic, and more.

(For 22oz and 22oz Lemon containers)

Ideal for: Cleaning countertops, floors, walls, vinyl siding, patio furniture, BBQ's, garbage bins, sporting equipment, stoves, refrigerators, vents, sinks, toilets, sporting equipment, gutters, tools, motors, RVs, trailers, boats, hot tubs & pools, bumpers, fiberglass, vinyl, rubber, plastic, glazed tile, glazed porcelain, painted/treated metals and much more.

DIRECTIONS FOR USE TO CLEAN:

- TO CLEAN:**
1. Spray on soiled surface.
 2. Wipe thoroughly with a clean cloth, towel or rinse. (Do not allow to dry on surface)
 3. For heavy deposits, stubborn soils and stains allow to penetrate briefly, additional applications or scrubbing may be required.

FOR PREPPING / CLEANING PAINT SURFACES: Spray Nine has been tested according to ASTM D 3395-95a and has proven to ensure maximum adhesion for paint, wallpaper border and decorative coverings for a professional cleaning job that looks better and lasts longer. To clean: 1. Spray on soiled surface. 2. Wipe thoroughly with a clean damp sponge/cloth or rinse. 3. For assistance with specific cleaning problems, call 1-800-477-7299.

BBQ GRILL CLEANING DIRECTIONS: Do not spray on lava rocks, charcoal or heating elements. Always remove cooking grate prior to cleaning it. Turn off gas and allow surface to cool before applying. Use a brush to loosen and remove heavy deposits. Tough deposits may require additional applications and scrubbing. Cooking grate must be rinsed with potable water after cleaning it.

DIRECTIONS FOR USE TO DISINFECT / SANITIZE / DEODORIZE:

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Some surfaces are inherently sensitive to alkaline cleaners. Always test on a small area of surface to be cleaned and air dry completely to determine colorfastness and surface integrity. Do not use on wool, leather, glass, untreated wood, treated fabrics or weathered surfaces. Do not use this product in combination with caustics, acids or bleach.

(Patio, BBQ and Marine – additional directions for use) Outdoor surfaces subjected to severe weather conditions, especially UV exposure, may be particularly sensitive to alkaline cleaners. Follow the outdoor surface manufacturer's recommended cleaning instructions. Do not use this product in combination with caustics, acids or bleach.

TO DISINFECT / DEODORIZE HARD, NON-POROUS SURFACES:

1. Clean hard, non-porous surfaces as instructed above.
2. Spray hard, non-porous surfaces at a distance of 6 – 8 inches until visibly wet.
3. Allow surfaces to remain visibly wet for (45 seconds for bacteria) (30 seconds for viruses) (and (9 minutes for fungi) (9 minutes).
4. Wipe thoroughly with a clean cloth, towel or rinse.
5. When used on food contact surfaces such as counters and tables, rinse thoroughly with potable water. Do not use on dishes, glasses, or silverware.
6. When used in Poultry Plants, food products and packaging materials must be removed from room or carefully protected. After use surfaces must be thoroughly rinsed with potable water.

TO SANITIZE HARD, NON-POROUS, NON-FOOD CONTACT SURFACES:

1. Clean hard, non-porous surfaces as instructed above.
2. Spray hard, non-porous surfaces at a distance of 6 – 8 inches until visibly wet. .
3. Allow surfaces to remain visibly wet for 5 seconds.
4. Wipe thoroughly with a clean cloth, towel or rinse.

TO CONTROL MOLD AND MILDEW on pre-cleaned, hard, non-porous, non-food contact surfaces: Spray hard, non-porous surfaces at a distance of 6 – 8 inches until visibly wet. Allow product to dry on surface. Spray Nine will prevent growth of mold on treated surfaces for up to 7 days.

FUNGICIDAL ACTIVITY: Spray Nine kills *Trichophyton interdigitale* and *Candida albicans* in areas such as shower and bath area, locker rooms, and dressing rooms on pre-cleaned, hard, non-porous surfaces: Spray hard, non-porous surfaces at a distance of 6 – 8 inches until visibly wet. Allow hard, non-porous surfaces to remain visibly wet for 9 minutes before rinsing.

FUNGISTATIC ACTIVITY: When used as directed above to control mold and mildew, Spray Nine is also an effective fungistat in controlling the growth of *Aspergillus niger*.

[Alternate]

FUNGICIDAL ACTIVITY: Spray Nine kills *Trichophyton interdigitale* and *Candida albicans* in areas such as shower and bath area, locker rooms, and dressing rooms on pre-cleaned, hard, non-porous surfaces: Spray hard, non-porous surfaces at a distance from 6 – 8 inches until visibly wet. Allow hard, non-porous surfaces to remain visibly wet for 9 minutes before rinsing.

When used as directed above to control mold and mildew, Spray Nine is also an effective fungistat in controlling the growth of *Aspergillus niger*.

****KILLS HIV, HBV, and HCV ON PRE-CLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS** in health care settings (Hospitals, Nursing Homes) or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 (HIV-1), Hepatitis B Virus, and Hepatitis C Virus.

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV, HBV, and HCV OF SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS:

PERSONAL PROTECTION: When handling items soiled with blood or body fluids, use disposable latex gloves, gowns, masks and eye coverings.

CLEANING PROCEDURES: Blood and other body fluids must be thoroughly cleaned from surfaces and objects before disinfection. **CONTACT TIME:** Spray hard, non-porous surfaces at a distance of 6 – 8 inches until visibly wet. Allow hard, non-porous surfaces to remain visibly wet for 30 seconds.

DISPOSAL OF INFECTIOUS MATERIALS: Blood and other body fluids must be autoclaved and disposed of according to local regulations for infectious waste disposal.

MEDICAL USE STATEMENT: This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normal sterile areas of the body. **This product may be used to preclean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.**

VETERINARY AND POULTRY USE- Spray Nine may be used as directed to treat high touch hard non-porous surfaces (e.g., cages, equipment tables, lab benches, faucet handles, or doorknobs) in commercial, institutional, and industrial settings. **For Veterinary and Poultry Use:** Remove all animals, water and feed from premises, animal transportation vehicles, crates and enclosures, etc. Remove all litter and manure from floors, walls, and surfaces of barns, pens, stalls, chutes, and other facilities and fixtures occupied or traversed by animals. Empty all troughs, racks, and other feeding and water appliances and equipment. Thoroughly pre-clean all surfaces with Spray Nine or soap or detergent to remove all visible soil and rinse with water. For spray application: spray all pre-cleaned hard, non-porous surfaces at a distance of 6 – 8 inches until visibly wet. For immersion application: immerse all pre-cleaned halters, ropes, and other types of equipment used in handling and restraining animals, as well as forks, shovels, and scrapers used for removing litter and manure. Allow hard, non-porous surfaces to remain visibly wet for 30 seconds to kill viruses. Allow to air dry. Ventilate buildings, cars, boats, and other closed spaces. Drain any pooled product and / or rinse standing product with potable water. Do not house livestock, animals, feed or water or employ equipment until treatment has been absorbed, or dried.

Spray Nine is effective on hard, non-porous surfaces against the following Veterinary/Poultry related organisms when used as directed:

VIRUSES-(30 second contact time)

- Norovirus (Feline Calicivirus)

- Avian Influenza A Virus (H3N2) and Avian Influenza A Virus Strain A/ 897/80X A/Mallard/ 6750/78 - Kills Avian influenza A virus on pre-cleaned hard, non-porous environmental surfaces-this product is for use on hard non-porous surfaces not conducive to treatment by immersion or excess liquid against Avian Influenza A.

EMERGING PATHOGENS-

This product qualifies for emerging viral pathogen claims per the EPA's 'Guidance to Registrants: Process for Making Claims Against Emerging Viral Pathogens not on EPA-Registered Disinfectant Labels' when used in accordance with the appropriate use directions indicated below.

This product meets the criteria to make claims against certain emerging viral pathogens from the following viral category[ies]:

- Enveloped Viruses
- Large Non-Enveloped Viruses
- Small Non-Enveloped Viruses

For an emerging viral pathogen that is a/an...

...following the directions for use for the following organisms on the label:

Enveloped virus	Norovirus/Feline calicivirus Rhinovirus Type 37 Poliovirus
Large, non-enveloped virus	Norovirus/Feline calicivirus Rhinovirus Type 37 Poliovirus
Small, non-enveloped virus	Norovirus/Feline calicivirus Rhinovirus Type 37 Poliovirus

EMERGING PATHOGENS STATEMENTS

Spray Nine has demonstrated effectiveness against viruses similar to [name of emerging virus] on hard, non-porous surfaces. Therefore, Spray Nine can be used against [name of emerging virus] when used in accordance with the directions for use against Poliovirus, Norovirus/Feline Calicivirus and Rhinovirus Type 37 on hard, non-porous surfaces. Refer to the [CDC or OIE] website at [pathogen-specific website address] for additional information.

[Name of illness/outbreak] is caused by [name of emerging virus]. Spray Nine kills similar viruses and therefore can be used against [name of emerging virus] when used in accordance with the directions for use against Poliovirus, Norovirus/Feline Calicivirus and Rhinovirus Type 37 on hard non-porous surfaces. Refer to the [CDC or OIE] website at [website address] for additional information.

Ingredients: water, alcohols C9-C11 ethoxylated, dipropylene glycol butyl ether, sodium metasilicate, lauramine oxide, tetrasodium pyrophosphate, alkyl dimethyl benzyl ammonium chlorides, tetrasodium EDTA, sodium hydroxide. Contains fragrance allergens. or visit WWW.Permatex.com/tech-documents/ca-right-to-know-act/.

PRECAUTIONARY STATEMENTS

Hazards to humans and domestic animals.

CAUTION: Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. For prolonged use, protective gloves are recommended. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the restroom. Remove and wash contaminated clothing before reuse.

FIRST AID

If in eyes: Hold eyelid open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If on skin or on clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a Poison Control Center or doctor or going for treatment.

Have the product container or label with you when calling a Poison Control Center or doctor or going for treatment.

For general information on product use, etc., call the National Pesticides Information Center (NPIC) at 1-800-858-7378, Monday – Friday, 8:00 am – 12:00 pm Pacific Time; email: npic@ace.orst.edu; or website: <http://npic.orst.edu/>. You may also contact the Poison Control Center 1-800-222-1222 for emergency medical treatment information.

Spray Nine

Effective, Versatile, Multi-Purpose

Cleaner · Degreaser · Disinfectant · Virucide* · Fungicide · Deodorizer · Sanitizer

Spray Nine® digs out tough grease, grime and other stubborn soils with “Spray on – Wipe off” ease from stainless steel, plastic, glazed tile, rubber, vinyl, fiberglass bathtubs and sinks, glazed porcelain, formica and other hard non-porous surfaces. Spray Nine is ideal for hospitals, nursing homes, day-care centers, schools and other institutions where cleaning and disinfecting on hard, non-porous surfaces are of prime importance. Spray Nine is authorized by USDA for use in federally inspected meat and poultry plants.

MEDICAL USE STATEMENT

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normal sterile areas of the body. **This product may be used to preclean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.**

STORAGE AND DISPOSAL

(For all container sizes):

STORAGE AND DISPOSAL: Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Keep from freezing or temperature greater than 120°F. Store in original container in area inaccessible to children and persons unfamiliar with proper product use.

CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill containers except for refill spray bottles which may be refilled with this product only. Triple rinse containers (or equivalent) promptly after emptying. Offer for recycling if available or for reconditioning if appropriate, or puncture and dispose in a sanitary landfill.

PESTICIDES DISPOSAL: Wastes resulting from the use of this product may be disposed of on-site or at an approved waste disposal facility.

ENVIRONMENTAL HAZARDS

Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the pertaining authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water or Regional Office of the EPA. This product is toxic to fish, aquatic invertebrates, shrimp, and oysters.
